

*A Special Message from Silas Lyon
President of Southern Keyboards, Inc. Marietta, GA*

Unfortunately, after 33 years of serving the Greater Atlanta piano community, it is time for Southern Keyboards to close operations. It has been a wonderful experience being a prime supplier of premium pianos to this market, but the current circumstances make it impossible to continue. We have been recognized as Kawai's US Dealer of the Year 5 times and were the senior member of Kawai's inner circle group of dealers. Approximately 80 percent of our new customers have been referred by our previous customers; who now number well over ten thousand.

Personally, I wish to remain in the piano industry and I look forward to working with many of you and your friends in the future. Working with piano teachers and music educators has been one of my special pleasures. To see the dedication and personal concern shown for their chosen field is amazing.

The liquidation of all remaining pianos will begin immediately. As a Golden Opportunity, I would truly enjoy as our departing thank you gift to see you enjoy one of these fine pianos. Please tell everyone you know who may have an interest. As you realize, the best selection will be now. I can be reached at 770-953-0938.

Sincerely,

Silas Lyons

President
